ECO & MULTI-FUNCTIONAL

# DESCRIPTION

MIZUKEI BOUJINTEX U is a two-component polyurethane floor paint that can be applied on mortar or concrete surfaces. It contains fast drying properties, despite it being water based, allowing a shorter application period.

MIZUKEI BOUJINTEX U is a flexible product with multiple use. Applicable for both indoor and outdoor, due to its' impressive resistance against weather. It is also particularly strong in resistance against stain, scratch, water, chemical, and oil.

MIZUKEI BOUJINTEX U provides a greener and safer multipurpose floor solution that dries off in a beautiful high gloss finish.

# USE

MIZUKEI BOUJINTEX U is applicable for interior and exterior floors. Suitable for a factory, warehouse, automobile repair shop, car park, production area, office, corridor, stairs, and more.

# FEATURES & ADVANTAGES

1. Quick-dry – efficient.
2. Water based – eco-friendly, releases low odor, prevents danger of fire or solvent intoxication.
3. Weather resistant - can be used outdoors.
4. Abrasion resistant – fights wear and tear.
